Technical & Digital Readiness Audit

Client — Construction

Prepared for: Client
Deliverable: Technical audit
Date: 07/10/2026

Executive summary

Client operates in Construction (construction). This audit evaluates stack readiness, security posture, conversion funnel integrity, and operational automation maturity against Construction peer benchmarks.

Construction-specific audit lenses:

- Change control
- Safety posture
- Closeout readiness

Headline findings (deterministic baseline — refine with live discovery notes):

- Primary value thesis: End-to-end delivery for Construction: CRM, automations, lead gen, and AI support — no platform resale, only finished output.
- Recommended core modules: crm, client-hunter, outreach, automation, billing
- Top research lenses: Gra P vina SMB market; local lead generation; digital adoption pain points
- Domain tokens in scope: job site, change order, punch list, subcontractor
- 90-day outcome target: portal live, CRM pipeline seeded, first automation closed-loop, measurable lead response SLA

Risk posture (preliminary) for Construction: Medium until auth, backup, and payment-confirm paths are evidence-checked. Priority risks:

- Scope creep via verbal change orders
- Punch list delays closeout
- Safety incidents without reporting path

Current state assessment

Industry focus areas for Construction:

- Gra P vina SMB market — score current maturity (1–5) and evidence location
- local lead generation — score current maturity (1–5) and evidence location
- digital adoption pain points — score current maturity (1–5) and evidence location
- compliance and onboarding — score current maturity (1–5) and evidence location

Capability scorecard (fill during kickoff):

- Identity & access (SSO/MFA, admin least-privilege)
- CRM hygiene (stages, owners, SLA clocks)
- Outbound/inbound attribution
- Billing / fulfillment handoff reliability
- Content & SEO basics for acquisition pages
- Change control — evidence note
- Safety posture — evidence note

Quality gates used as acceptance bar:

- Research complete (TAM + competition in research_data)
- Artifacts generated (module, landing, workflow, outreach, quality pack)

- Dynamic pricing quote valid for verticalSlug
- CRM pipeline and lead source defined
- Outreach draft reviewed before send (domain warmup)
- Smoke test / owner sign-off before client delivery

Security & compliance

Checklist for Construction — mark each item Pass / Fail / N/A with evidence:

1. TLS everywhere (no mixed content); HSTS where applicable
2. Secrets not in client bundles; rotation cadence documented
3. Auth: password reset, session expiry, role separation for admin vs client
4. Backup: encrypted at rest, restore drill within last 90 days
5. Audit log for payment confirm and privilege changes
6. Rate limits / abuse controls on public forms and APIs
7. Dependency and image patch policy for production hosts
8. Safety briefing / toolbox talk cadence documented
9. Change order approval before extra work
10. Subcontractor insurance evidence on file

Milestone: complete this checklist before any production DNS cutover (Phase 1).

Recommended stack & integrations

For Client in Construction, prioritize:

- Modules: crm, client-hunter, outreach, automation, billing
- Primary offers: Workflow design (€1591); Technical audit (€1269); Full onboarding (€2715); Custom integration (€3197)
- Keywords / positioning: gra Pvina, SMB, local business, automation, construction
- Job ID correlates drawings, COs, and invoices
- Block extra billing without CO approval

Integration order (avoid big-bang):

1. Portal auth + notifications
2. CRM pipeline + lead source tags
3. Payment confirm !' fulfillment webhook
4. Outreach / follow-up only after CRM stages are stable

90-day roadmap

Phase 1 — Days 1–30 (foundations)

- Kickoff + access inventory
- Portal/auth smoke tests
- Security checklist baseline (Construction compliance items)
- CO workflow live

Phase 2 — Days 31–60 (revenue path)

- Discover local leads: discover (client-hunter)
- Score leads: score (lead-scoring)
- CRM capture: create-contact (crm)
- Outreach sequence: sequence (outreach)

Phase 3 — Days 61–90 (scale & measure)

- Follow-up: run
- Billing: invoice

- KPI review (Construction): Change order cycle time; Punch list close rate; On-time milestone %
- Acceptance: owner sign-off against quality gates

Milestones:

1. M1 Go-live checklist green
2. M2 First closed automation loop
3. M3 ROI dashboard reviewed with client
4. M4 CO workflow live
5. M5 Safety briefing cadence
6. M6 Punch list template

ROI estimate & acceptance checklist

Conservative model for Construction assumes 15–25% operational improvement and reduced admin hours from automation within 90 days. Track weekly KPIs:

- Change order cycle time
- Punch list close rate
- On-time milestone %

Acceptance checklist (purchase justification):

- & Executive summary names client + Construction
- & Security checklist completed with evidence notes
- & Industry compliance items covered: job site, change order, punch list
- & Stack recommendations map to activated modules
- & 90-day roadmap has dated phases + milestones
- & ROI metrics owners assigned
- & Outreach hooks validated: Turnkey delivery for Gra P vina — no platform resale | CRM + automations tailored to your niche

Discovery agenda & evidence requests

Kickoff discovery for Client (Construction) — capture answers with owner + evidence links:

1. How are change orders approved today?
2. Where do punch lists live?
3. Who owns site safety reporting?

Evidence pack to attach before Phase 2:

- Current CRM export or stage screenshot
- Auth / admin role matrix (who can confirm payments)
- Public site URL + analytics property IDs (if any)
- Domain risk notes for: Scope creep via verbal change orders; Punch list delays closeout
- Sales pains to validate: Budget overruns; Lost change orders; Slow closeout

Milestone: discovery notes filed in kickoff ticket within 5 business days.

Competitive & positioning notes

Construction positioning for Client against peer SMB benchmarks:

- Value thesis: End-to-end delivery for Construction: CRM, automations, lead gen, and AI support — no platform resale, only finished output.
- Keywords to own: gra P vina, SMB, local business, automation, construction
- Outreach hooks: Turnkey delivery for Gra P vina — no platform resale; CRM + automations tailored to your niche; Lead gen and follow-up in one package
- Distinctive tokens to keep in client copy: job site, change order, punch list, subcontractor, safety briefing

Competitive checklist:

- & List 3 local/regional peers and their primary CTA
- & Note pricing transparency (menu / package / quote-only)
- & Capture review volume + response SLA on Google/Facebook if present
- & Map peer gaps to Construction lenses: Change control; Safety posture; Closeout readiness

Acceptance: positioning one-pager reviewed with owner before paid ads or outbound.
