Vertical Solution — Education & Training

Client — Education

Prepared for: Client
Deliverable: Vertical solution
Date: 06/10/2026

Value proposition

End-to-end delivery for Education & Training: CRM, automations, lead gen, and AI support — no platform resale, only finished output.

Prepared for Client in Education (education).
Domain focus: enrollment, cohort, attendance, curriculum, learner progress

Sales pains this pack addresses:

- Inquiry volume without enrollment conversion
- Manual cohort onboarding checklists
- Parents/learners unclear on next steps after payment

Milestone M1: align on primary offer + success KPI within kickoff week.
Checklist: & primary offer named & KPI owner & kickoff week booked & no invented live harvest

Recommended products

- Landing + copy (€1974, one_time) — Landing + copy
- Vertical solution (€1209, monthly) — Vertikalni paket rešenja
- AI support retainer (€1056, monthly) — AI podrška retainer
- Full onboarding (€2586, one_time) — Pun onboarding

Package quote reference (vertical): €1209

Sequencing guidance:

1. Confirm portal entitlements + CRM DEMO seed (this pack)
2. Add setup-full / audit if migration or stack review is needed
3. Keep LinkedIn/Google Ads NOT CONNECTED until API credentials exist

Checklist: & quote understood & sequence agreed & upsell path optional only

Implementation workflow

1. CRM lead — create-contact (crm)
2. AI memory curriculum — remember (ai-memory)
3. Automation enroll — run (automation)
4. Notify — send (notifications)

Education workflow nuances:

- Inquiry !' advise !' enroll !' onboarding !' attendance !' progress
- Paid enrollment required before roster unlock
- Advisor escalate if attendance < threshold Week 2

Checklist: & stages in CRM & first automation dry-run & owner training & DEMO vs live rows labeled
Milestone M2: first Education stage practice complete.

Quality gates & compliance

- & Research complete (TAM + competition in research_data)
- & Artifacts generated (module, landing, workflow, outreach, quality pack)
- & Dynamic pricing quote valid for verticalSlug
- & CRM pipeline and lead source defined
- & Outreach draft reviewed before send (domain warmup)
- & Smoke test / owner sign-off before client delivery

Education compliance reminders:

- & FERPA / student-data minimization for CRM fields
- & Guardian consent captured where required for minors
- & Curriculum version attached to each cohort
- & Attendance records retained per institutional policy

Operational risks: Enrollment drop-off between inquiry and paid seat; Cohort start without complete attendance tooling; Learner progress invisible to advisors

Acceptance: SLA/onboarding pack + FAQ seed downloaded; kickoff ticket open.

Keywords, modules & 90-day focus

Keywords: online tutoring, course creation, corporate training, EdTech, education & training, education training

Modules: crm, automation, ai-rag, template-engine, notifications

Research focus:

- EdTech market
- online tutoring demand
- corporate training spend

Education KPIs:

- & Track: Inquiry !' enrollment conversion
- & Track: Cohort fill rate by start date
- & Track: Attendance % by week
- & Track: Learner progress milestone completion

Day 30 / Day 60 / Day 90: review KPI pack and backlog with client.

Setup milestones: Enrollment payment !' roster unlock path live; Cohort onboarding checklist signed; Attendance exception owner named

Checklist: & Day-30 review & Day-60 backlog & Day-90 ROI & channel honesty restated

Kickoff runbook & channel honesty

Day-to-day runbook for Client operators:

1. Login !' Notifications !' Billing !' Deliveries (download this PDF + SLA pack)
2. Confirm CRM DEMO seed; do not treat samples as live leads
3. Use the kickoff support ticket for blockers (include payment/order ID)
4. Revisit discovery prompts: Where do enrollments stall (payment, paperwork, placement)?; How is attendance taken and who sees exceptions?
5. Integration notes for later wiring: Enrollment ID keys billing, roster, and portal access; Attendance webhooks must not include sensitive grades by default

Honesty boundaries:

- LinkedIn Ads / Google Ads / Apollo remain NOT CONNECTED until APIs are wired
- Automation module entitled "" external automations connected
- This vertical pack does not invent harvested lead counts

Checklist: & SLA pack verified & FAQ seed reviewed & operators named & escalation email known
